

Driving Innovation,
Fueling Success

Throughout North America or around the world – Transport Logistics can take you there. With seamless multimodal flexibility, we have access to the capability and the capacity. Dry van, refrigerated, flatbed, oversized, LTL or truckload – yes we can! Your customers rely on you. You can rely on Transport Logistics.

World-Class Transportation Management

- Transport Logistics is a leading provider of global transportation services, and everything you're looking for in a third-party logistics provider: Capabilities, Creativity, Capacity and Commitment.
- Non-Asset-Based, Customized Multimodal Solutions
- Domestic and International Shipments
- Intermodal Coordination
- Warehousing
- LTL Consolidation
- On-Site or Remote Freight Management

Integrated Services, Global Reach

- Transport Logistics can deliver your shipments anywhere in the world, handling every detail door to door.
- Over the Road – The full range of options, with virtually unlimited flexibility and capacity.
- Air Freight – Cargo aircraft carriers to every destination.
- Ocean Freight – Shipments anywhere in the world, convenient sailing schedules, strong capacity and competitive pricing.
- Intermodal Services – Seamless movement of your freight, while minimizing cost.
- Integrated Solutions – We'll create a customized flow plan, even provide a manager to coordinate all shipments.

Technology

Transport Logistics' advanced information technology enables you to track your shipment from dispatch to destination. GPS satellite tracking and our web-based information system provide real-time visibility of your entire local and global inventory, orders and shipments. We are dedicated to always being on the leading edge of logistics technology, and are continually updating our information sharing system.

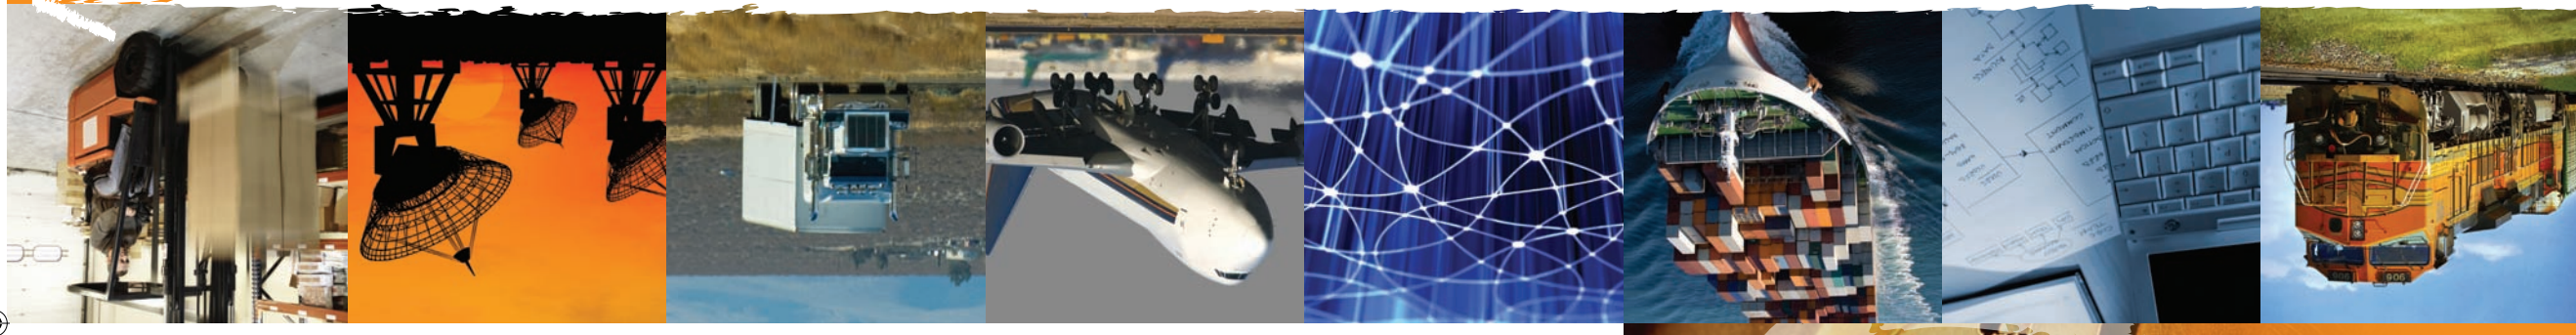

Total Logistics Solutions

- We can do more than move your freight. We can help you create a supply chain system that is a model of performance and cost-efficiency. We'll analyze your logistics needs, pinpoint your toughest challenges and determine your optimal solutions – then handle every aspect of your supply chain management:
- Shipment planning, optimization, loading and execution
- Carrier management
- Warehousing
- Financial reconciliation

It Takes More Than Trucks, Ships and Planes

It takes experienced, knowledgeable, dedicated people. The Transport Logistics Team will deliver a level of service rarely found in the industry, working closely with you to provide an enduring logistics solution. Whether you're delivering across the state or across the globe, Transport Logistics will make a world of difference to you, your customers, and your bottom line.
